- ✓ Team environment
- ✓ Structured production line
- ✓ All factory / office staff in one location

ONSITE WORK

- ✓ Get to work in your own area – Coastal / Country Locations
- ✓ Enjoy easier work hours onsite – Less council restrictions in the Country

Who is Manor?

Why work with us?

Manor specialises in building modular Country and Village homes, throughout NSW. Our 'system-built' construction process results in a streamlined process that's tightly controlled through the project management process.

Manor homes are built offsite in our factory at Lisarow. This means all subcontractors and trades can be managed in one location, where questions are answered quickly, and materials are on hand.

Homes are then transported to site where further work is required to complete the home, ready for the client to move-in.

We are a team who has an unwavering commitment to quality and service, in all areas of the company. From the factory to the site, we ensure our values are built into the end result. And because nothing happens with a quality team, we invite you to join our 'family', Build Crew.

What is Manor | Build Crew?

Build Crew is a new program including an incentive-based rewards system. With the program kick-off beginning in January 2022, Manor will ensure trades and contractors are at front of mind, ensuring they enjoy working with crew members and being part of a team.

Benefits of joining Build Crew:

- ✓ Job & referral incentives
- ✓ Loyalty points for a job well done – use your points on gifts, meals, gift cards & fuel
- ✓ Join a private Facebook group for updates, weekly news & job requests
- ✓ Training – Have access to joining free webinars, training videos, blogs and eBooks

Better built together

it starts with our people

Our people do business with honesty and transparency.

Our people strive to provide quality to our clients.

Our people are passionate about the product.

Our people work together to form a team.

Our people communicate regularly.

Our people create a 'family'.

Could this be you?
