

Standard Inclusions

manor
BUILT FOR LIVING.

Standard Inclusions

Steel Base Frame & Footings

- Engineer designed heavy-duty underfloor steel chassis.
- RHS Duragal galvanised steel floor joists.
- Engineer designed concrete footing with galvanised steel pier insert.
- Galvanised pier affixed to underfloor steel-chassis. Specified in excess of N3 wind rating.
- Adjustable pier system option available for reactive soils.

Floor & Framing

- Termite treated 22mm particleboard flooring, glued and fixed with twist nails.
- H2 (termite treated) pine or steel* wall and roof framing.

* The use of H2 pine or steel will be at the company's discretion unless prior arrangement is made. Steel wall and roof frames will become primary material mid-2022, and timber will still be an option.

Roofing

- Full 18° roof pitch with your choice of colour in Colorbond Corodek sheeting.
- Steeper roof pitch options available.
- Colorbond gutters and downpipes.
- Complete eaves around your home – 300mm wide.

Cladding

- Sarking beneath all cladding.
- Range of Weathertex selfflok cladding.
- Other profiles or render upgrade options available.

Kitchen

- Full-size Polytec moisture resistant kitchen cabinets with adjustable shelves and rolled edge laminated benchtop.
- Tough PVC edging to doors for durability.
- Overhead wall cabinets as per plan.
- 600mm Ariston stainless steel electric oven with separate gas cooktop (gas or electric options available).
- 600mm Ariston stainless steel retractable rangehood over cooktop.

- Separate microwave and dishwasher provisions (not including appliance supply).
- 1¾ bowl stainless steel sink with designer chrome flickmixer.

Tiling

- Wide selection of tiles to choose from.
- Full ceramic floor tiling to all bathrooms, ensuites, WC, laundry.
- Bathroom / ensuite walls tiled to 1200mm high, with shower recess up to 2100mm high.
- Skirting tiles to WC and laundry with splash back over tub.
- Full height tiled splash back between kitchen bench and overhead cupboards.

Wet area fittings/features

- Full gloss kick board vanity with matching large mirror above to bathroom / ensuite. Wall hung vanity is an upgrade.
- Full framed glass shower screen.
- Built-in acrylic bath where shown.
- 4-lamp combination heater / fan / light to main bathroom.
- 2-lamp combination heater / fan / light to ensuite.
- Quality Byron chrome towel rail, towel ring and toilet roll holder.
- Full ceramic dual-flush toilet suite.
- Quality Reece Posh Bristol chrome-plated solid brass tapware and shower rail unit.
- Fully integrated laminated bench unit (where shown on plan) with 45 litre stainless steel tub insert to laundry.

I never felt like I was a burden to the Manor Team. They were all extremely efficient, friendly and oh so accommodating.

No matter the curve-ball thrown at us, Manor handled it with ease and seemed to be always one step ahead. Thank you for absolutely everything. We will never forget your amazing efforts for our building journey.

Grace Chapman
Tailored Design, Greta, NSW

Insulation

- R1.5 fire retardant blanket / foil roof insulation.
- R2.0 thermal insulation batts to all external walls.
- R0.8 wall wrap to all external walls
- Engineered wall bracing
- Underfloor / ceiling / wall insulation upgrades available as option.

Windows

- Low maintenance aluminium windows.
- Keyed-alike locks to all windows.
- Colour matching flyscreens to all windows.
- Painted treated pine external frames.

Doors and internal fixout

- Solid panel feature front entry door from the Hume 'Vaucluse' range.
- Solid panel rear door with large glass insert from Hume 'Glass Opening' range.
- Fly-screen safety door to front and rear.

- Vinyl Godfrey Hirst floor covering from allowance to kitchen, living, hallways & dining areas.
- Quality window furnishings to all clear windows (excluding laundry).
- Quality window furnishings to sliding glass doors (where shown).

Manor may alter specifications and inclusions without notice if a product becomes unavailable.

Things to consider when building your new modular home

Finance

Financing for a modular home can sometimes be challenging if the bank is not familiar financing modular homes. We recommend a specialist finance broker, Darren Munroe from Aussie Home Loans, who is experienced in arranging finance for modular homes. We simply make this suggestion as we have seen to many bad experiences with brokers / manufactured homes and know there is an easier way. Contact us for more details.

Building Method

With almost 90% of the home completed in the factory, our builds are more flexible and **tailored designs** compared to conventional builds, closely supervised quality control, **short construction times**, and delivered where you want with **sustainable features**.

Choosing a Site

When considering buying modular – the site where you choose to build is just as important. **You will need to factor in constraints, plan orientation and access for the delivery of the home.** These are all things that we can assist you with during our Discovery and Design meetings.

Legal Compliances

Council approval and other site surveys/ bushfire reports will need to be completed prior to any site works and your home being delivered to site. Our Projects team will ensure the process is hassle-free and easy as we manage the approval of your home for you.

Sustainability & Energy Rating

If you care about the environment as much as we do, you'll soon **discover the green benefits of building with modular homes.** Efficient building methods, green materials and minimal wastage **thanks to our recycle and re-use policy.**

Essential Connections

How electrical and plumbing services are connected and how much it will cost, will depend entirely on your land. If you already have services on site, your new home connections will require less work. If there are no service connections in place, the added expense will need to be accounted for in your budget. Manor can assist you with more information during our Discovery and Design Meetings.

Interior Options

Our 4 style options give you the opportunity to capture the look you've always wanted or make your home unique with your choice of colours and fixtures. Our 14 colour boards are just the beginning!

Your Outdoor Space

Factor in what will be surrounding your home. Landscaping is the finishing touch to your home, although this can be completed after the home is built, it is always a good idea to **think about the gardens and layout so we can ensure the home is situated on your site correctly.**

Moving Costs

Don't forget the big day! With so much in mind, we find it is easy to overlook the actual moving process. **Plan your move-in easier with your given home handover date.**
